BLACKBURN, JASON

Incorporating retrospective clustering into a prospective Cusum methodology for anthrax: evaluating the effects of disease expectation.

BLOOMQUIST, JEFF

Consequences of manganese administration for striatal dopamine and motor behavior in 1-methyl-4-phenyl-1,2,3,6-tetrahydropyridine-exposed C57BL/6 mice.

Hum Exp Toxicol. 2012 Dec 21. [Epub ahead of print]

Voltage-sensitive chloride ion channels in Anopheles gambiae Sua-1B cells.

Select small core structure carbamates exhibit high contact toxicity to "carbamate-resistant" strain malaria mosquitoes, Anopheles gambiae (Akron).

Aryl methylcarbamates: Potency and selectivity towards wild-type and carbamate-insensitive (G119S) Anopheles gambiae acetylcholinesterase, and toxicity to G3 strain An. gambiae.

Induction and inhibition of an apparent neuronal phenotype in Spodoptera frugiperda insect cells (Sf21) by chemical agents.

Re-engineering aryl methylcarbamates to confer high selectivity for inhibition of Anopheles gambiae versus human acetylcholinesterase.

Provider and practice characteristics associated with use of rapid HIV Testing by general internists.  

College students and use of K2: an emerging drug of abuse in young persons  

Does the Internet represent a sexual health risk environment for young people?  

HIV-1 Subtype distribution in morocco based on national sentinel surveillance data 2004-2005.  

Factors affecting clinician educator encouragement of routine HIV testing among trainees  

Electronic medical record availability and primary care depression treatment.  

Alcohol Consumption Trajectory Patterns in Adult Women with HIV Infection.  

AIDS Behav. 2012 Jul 27. [Epub ahead of print]

DAI, JIANLI  
Web-accessible database of hsp65 sequences from Mycobacterium reference strains.  

Multiple-genome comparison reveals new loci for Mycobacterium species identification.  

DARK, MICHAEL  
Comparative genomics and transcriptomics of trait-gene association.  

Determining the repertoire of immunodominant proteins via whole-genome amplification of intracellular pathogens

Ocular and olfactory forebrain abnormalities within a neonatal alpaca (Vicugna pacos).

Multistrain genome analysis identifies candidate vaccine antigens of Anaplasma marginale.

FENNELLY, KEVIN

Azithromycin in non-cystic-fibrosis bronchiectasis.

Inhaled Dornase alfa (Pulmozyme) as a noninvasive treatment of atelectasis in mechanically ventilated patients.

Variability of infectious aerosols produced during coughing by patients with pulmonary tuberculosis.

Isolation anterooms: Important components of airborne infection control.

Behind the mask: overdue evidence.

The small membrane filter method of microscopy to diagnose pulmonary tuberculosis.

Evaluation of processing methods to equitably aliquot sputa for mycobacterial testing.

Am J Respir Crit Care Med. 2013 Jan 10. [Epub ahead of print]

An eXpert AFB smear?  

Transocular infection with influenza and efficacy of barrier methods.

Effectiveness of the standard WHO recommended retreatment regimen (category II) for tuberculosis in Kampala, Uganda: a prospective cohort study.

FOCKS, DANA  
Assessing the potential of a candidate dengue vaccine with mathematical modeling.

Parameterization and sensitivity analysis of a complex simulation model for mosquito population dynamics, dengue transmission, and their control.

Evaluation of a novel emergence trap to study Culex mosquitoes in urban catch basins.

FOLIMONOVA, SVETLANA  
Foot and mouth disease virus polyepitope protein produced in bacteria and plants induces protective immunity in guinea pigs.

GIRON, JORGE  
Multi-functional analysis of Klebsiella pneumoniae fimbrial types in adherence and biofilm formation.

Transcriptional regulation of the ecp operon by EcpR, IHF, and H-NS in attaching and effacing Escherichia coli.

Virulence. 2013 Jan 9;4(2). [Epub ahead of print]
